Mr. Jerome T. Broussard, President  
Columbia Falls Aluminum Company  
2000 Aluminum Drive  
Columbia Falls, MT 59912

Dear Jerry:

Before our Kalispell lawyers put the deed to the Columbia Falls Plant to record, they noticed that the description prepared by the title company failed to exclude a parcel of land which was previously conveyed to the United States of America for the location of a Bonneville Power substation.

This was corrected by adding that parcel as an exception to Exhibit A, page 17. A revised copy of page 17 is enclosed for your convenience. This was done simply to correct a mistake so that the deed as recorded would be in final form.

Sincerely,

B. E. Johnson
